

Career Action Plan

Career Action Plan for: Heaven Ramos

Future Career: Cyber Security

Section	My Answers
Occupations Matching Your Interests	Cyber security, Animation, Graphic Design,
Occupations Matching Your Lifestyle Goals	Cyber Security, Animation
Occupation to Research	Cyber Security
Degree and/or Certification Required	Bachelor's degree in computer science or cybersecurity, hands-on experience through labs or internships, and certifications like CompTIA Security+
Education and/or Training Programs	Carnegie Mellon University, Cal Poly Pomona, and SANS Technology Institute
Related Experiences	Nothing? Other than some CSS and HTML coding classes in highschool i dont know
Future Experiences	roles in IT support, network administration, system engineering, and software development just anything involving computers i'd think?
Supporters	I don't know anyone who could help me get into the ISC2, SANS Institute, and ISACA
Action Steps	Taking more classes supporting what I want to do and saving to get my certifications because the certifications alone are almost 1.8k, depending on where you get them from
Career Backup Plan	Animation or Graphic design, I've always had a love for art and everything creative, so it'd be nice to have a job in something I enjoy
